The word AI, artificial intelligence, comes up a lot lately. It seems like everything and everyone is using it!

But what does it actually mean, and how can it be used for good?

Explore these videos and examples. Take notes and then ask yourself what you notice and wonder about the use of AI to create change around the world.

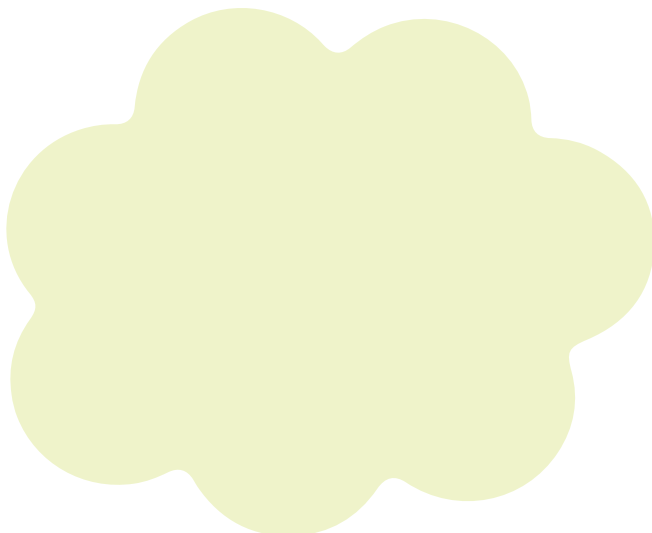

## Part 1: What is AI?

Name of person or organization	What problems are they trying to address?	How are they using artificial intelligence or machine learning?	What do you notice and wonder about their work?
